

CSS Exercise #5: CSS Boxes

Filename: Ex5_Lastname.html

Format5.css

1. Create 3 boxes in HTML and format each one in CSS.

2. Content of boxes:

Box1 : Joseph Wirthlin

Sometimes we make the process more complicated than we need to. We will never make a journey of a thousand miles by fretting about how long it will take or how hard it will be. We make the journey by taking each day step by step and then repeating it again and again until we reach our destination.

Box2: Maya Angelou

I'm convinced of this: Good done anywhere is good done everywhere. For a change, start by speaking to people rather than walking by them like they're stones that don't matter. As long as you're breathing, it's never too late to do some good deeds. Do it now, do it today and see the difference.

Box3: Search

3. For the third box, the search should have a hover color and visited color. Choose any appropriate color.
4. Format each box like the output below.
Look for colors that are the same/closest to the used colors.
